The play will be produced at the Boyd next Thursday evening with the entire scenery, cast and stage settings as used by Mr. Russell during his recent successful run at Daly's theater in New York.

Dr. Binney, practice limited to ocular diseases for children and throat. Rooms 248 to 250, Ben building.

FIRE AND POLICE.

Chief Seavey recommends the removal of the City Jail.

The fire and police board held an important meeting last evening, with Mayor Cushing, Secretary Smith and Mr. Hartman present. Several communications from Chief Seavey were considered first. The first was an urgent recommendation that the city jail be moved to a more healthy locality. Commissioner Hartman remarked, "Yes, we must get right at that matter and do it justice."

In another communication the chief recommended that a new style of police uniform be adopted for summer wear, and that the board purchase the cloth; the chief further advised that the police forces be graded into three grades in order to give an incentive for men to excel in the performance of their duty.

The regular monthly health report of the police force was read and proved to be of minor interest. The monthly report of the city jailors, as previously reported in this issue, was placed on file with the health report.

The resignation of ex-Pound Master Corey as a special officer was accepted.

A ten days' leave of absence was granted Officer John O'Connell to get married. Officer C. H. Monroe was given ten days to go visiting, and Sergeant George M. D. Graves was given a fifteen days' leave of absence.

The power-study and sixty-day condition of George M. Carroll, the Cuming street jailor, came in for a little talk. The matter was referred to Chief Seavey and City Physician Gideon for proper disposal.

The board confirmed the appointment by the mayor of Pound Master Pulaski as a special officer.

Chief Seavey reported that Captain Mott and Sergeant Hase had visited the rooms over 145 Douglas street and found evidence that poker playing was done there; also over Foley's saloon, next door; they had also visited the rooms over 115 North Eleventh, known as the Hubbard Progress, which where they found men playing cards, but saw no money or chips, although the officers said that crapping shovels were carried on there by negroes. The report was referred to the board.

Fire Chief Galligan told the board that he needed a couple of new men. There were eight or ten men present to be examined, and the board called them forward. Commissioner Hartman put the usual questions. The first man to step forward was Charles O. Matson, who said he was in the employ of General Leavelle. He is a native of St. Jim, who said he was twenty-five years old and had been a sailor most of his life.

CONSUMPTION.

IN its first stages, can be successfully checked by the prompt use of Ayer's Cherry Pectoral. Even in the later periods of this disease, the cough is wonderfully relieved by this medicine.

"I have used Ayer's Cherry Pectoral with the best effect in my practice. This wonderful preparation cures croup, whooping cough, and all other pulmonary troubles, and gives relief to the most distressing cases. It is a most valuable remedy, and one that every family should have on hand."—A. J. Eldson, M. D., Middleton, Tennessee.

"Several years ago I was severely ill. The doctor said I was in consumption, and that they could do nothing for me, but advised me, as a last resort, to try Ayer's Cherry Pectoral. After taking this medicine two or three months I was cured, and my health remains good to the present day."—James Burdick, Darien, Conn.

"Several years ago, on a passage home from California, by water, I contracted so severe a cold that for some days I was confined to my state-room, and a physician on board considered my life in danger. Happening to have a bottle of Ayer's Cherry Pectoral, I used it freely, and my lungs were soon restored to a healthy condition. Since then I have invariably recommended this preparation."—J. B. Chandler, Junction, Va.

HATS AND SHOES.

In our Hat Department the arrangements for this spring are on a much larger scale than ever before. We are showing as large a stock as 3 or 4 ordinary Hat stores combined, and it is now a recognized fact that we are selling Hats at about one half the prices which Hat stores charge. Our patrons and regular customers know that, but if you are one of those who buys Hats on the strength of a name, or a trade-mark printed in the crown, you ought to come and look at our stock and we will easily convince you that you have been paying from \$2 to \$3.00 more for a Hat than its worth. Our fine Derby hats are made from the most correct blocks and come from the same factories that turn out the Hats for New York's best known and most fashionable Hatters. The quantities we handle enable us not only to buy them considerably cheaper than the average hatter, but also to sell them with a much smaller profit, and thus you see how it is that our prices are so much lower.

As in our Hat department we have built up an immense trade in Shoes, and this trade has been built up on a solid foundation. Never were honest and well made shoes offered in this city at the prices we sell them, and the guarantee which is given with every pair is a sufficient proof of the quality and make of the shoes we are handling. If a shoe is not as represented, or if you have reason to be dissatisfied after you wear them, bring them back and we will give you a new pair free.
